Dear Ms. Jensen:

We have received your Notice of Intent, dated July 19, 1990, to do assessment work on the Spectrum lode and placer claims. We can not accept this notice until we receive a map clearly showing where you intend to do your work. We also need to know more precisely what you intend to do. Are you planning to do reclamation work, or do you intend to cleanup the area to better expose your working face?

I have enclosed a copy of the piece of the U.S.G.S. quad which covers the general area of your operation. Please mark on it the area where you intend to work. Please list the kind of equipment you intend to use for your work. Also, please indicate who owns these claims. Our records show that Sapphire Incorporated owns these claims, however, a check with the Utah Department of Commerce indicates that this Corporation has been dissolved. Without additional clarification we will have to assume that you are the claimant and hold you personally responsible for reclamation of any areas disturbed under this notice.

We appreciate your determination to stay within areas that have been previously disturbed. Please understand, however, that you will be responsible for reclaiming the area where you will be working this year.

Thank you for your attention to these matters. Should you have any questions concerning this letter please feel free to contact Phil Allard at (801) 743-6811.

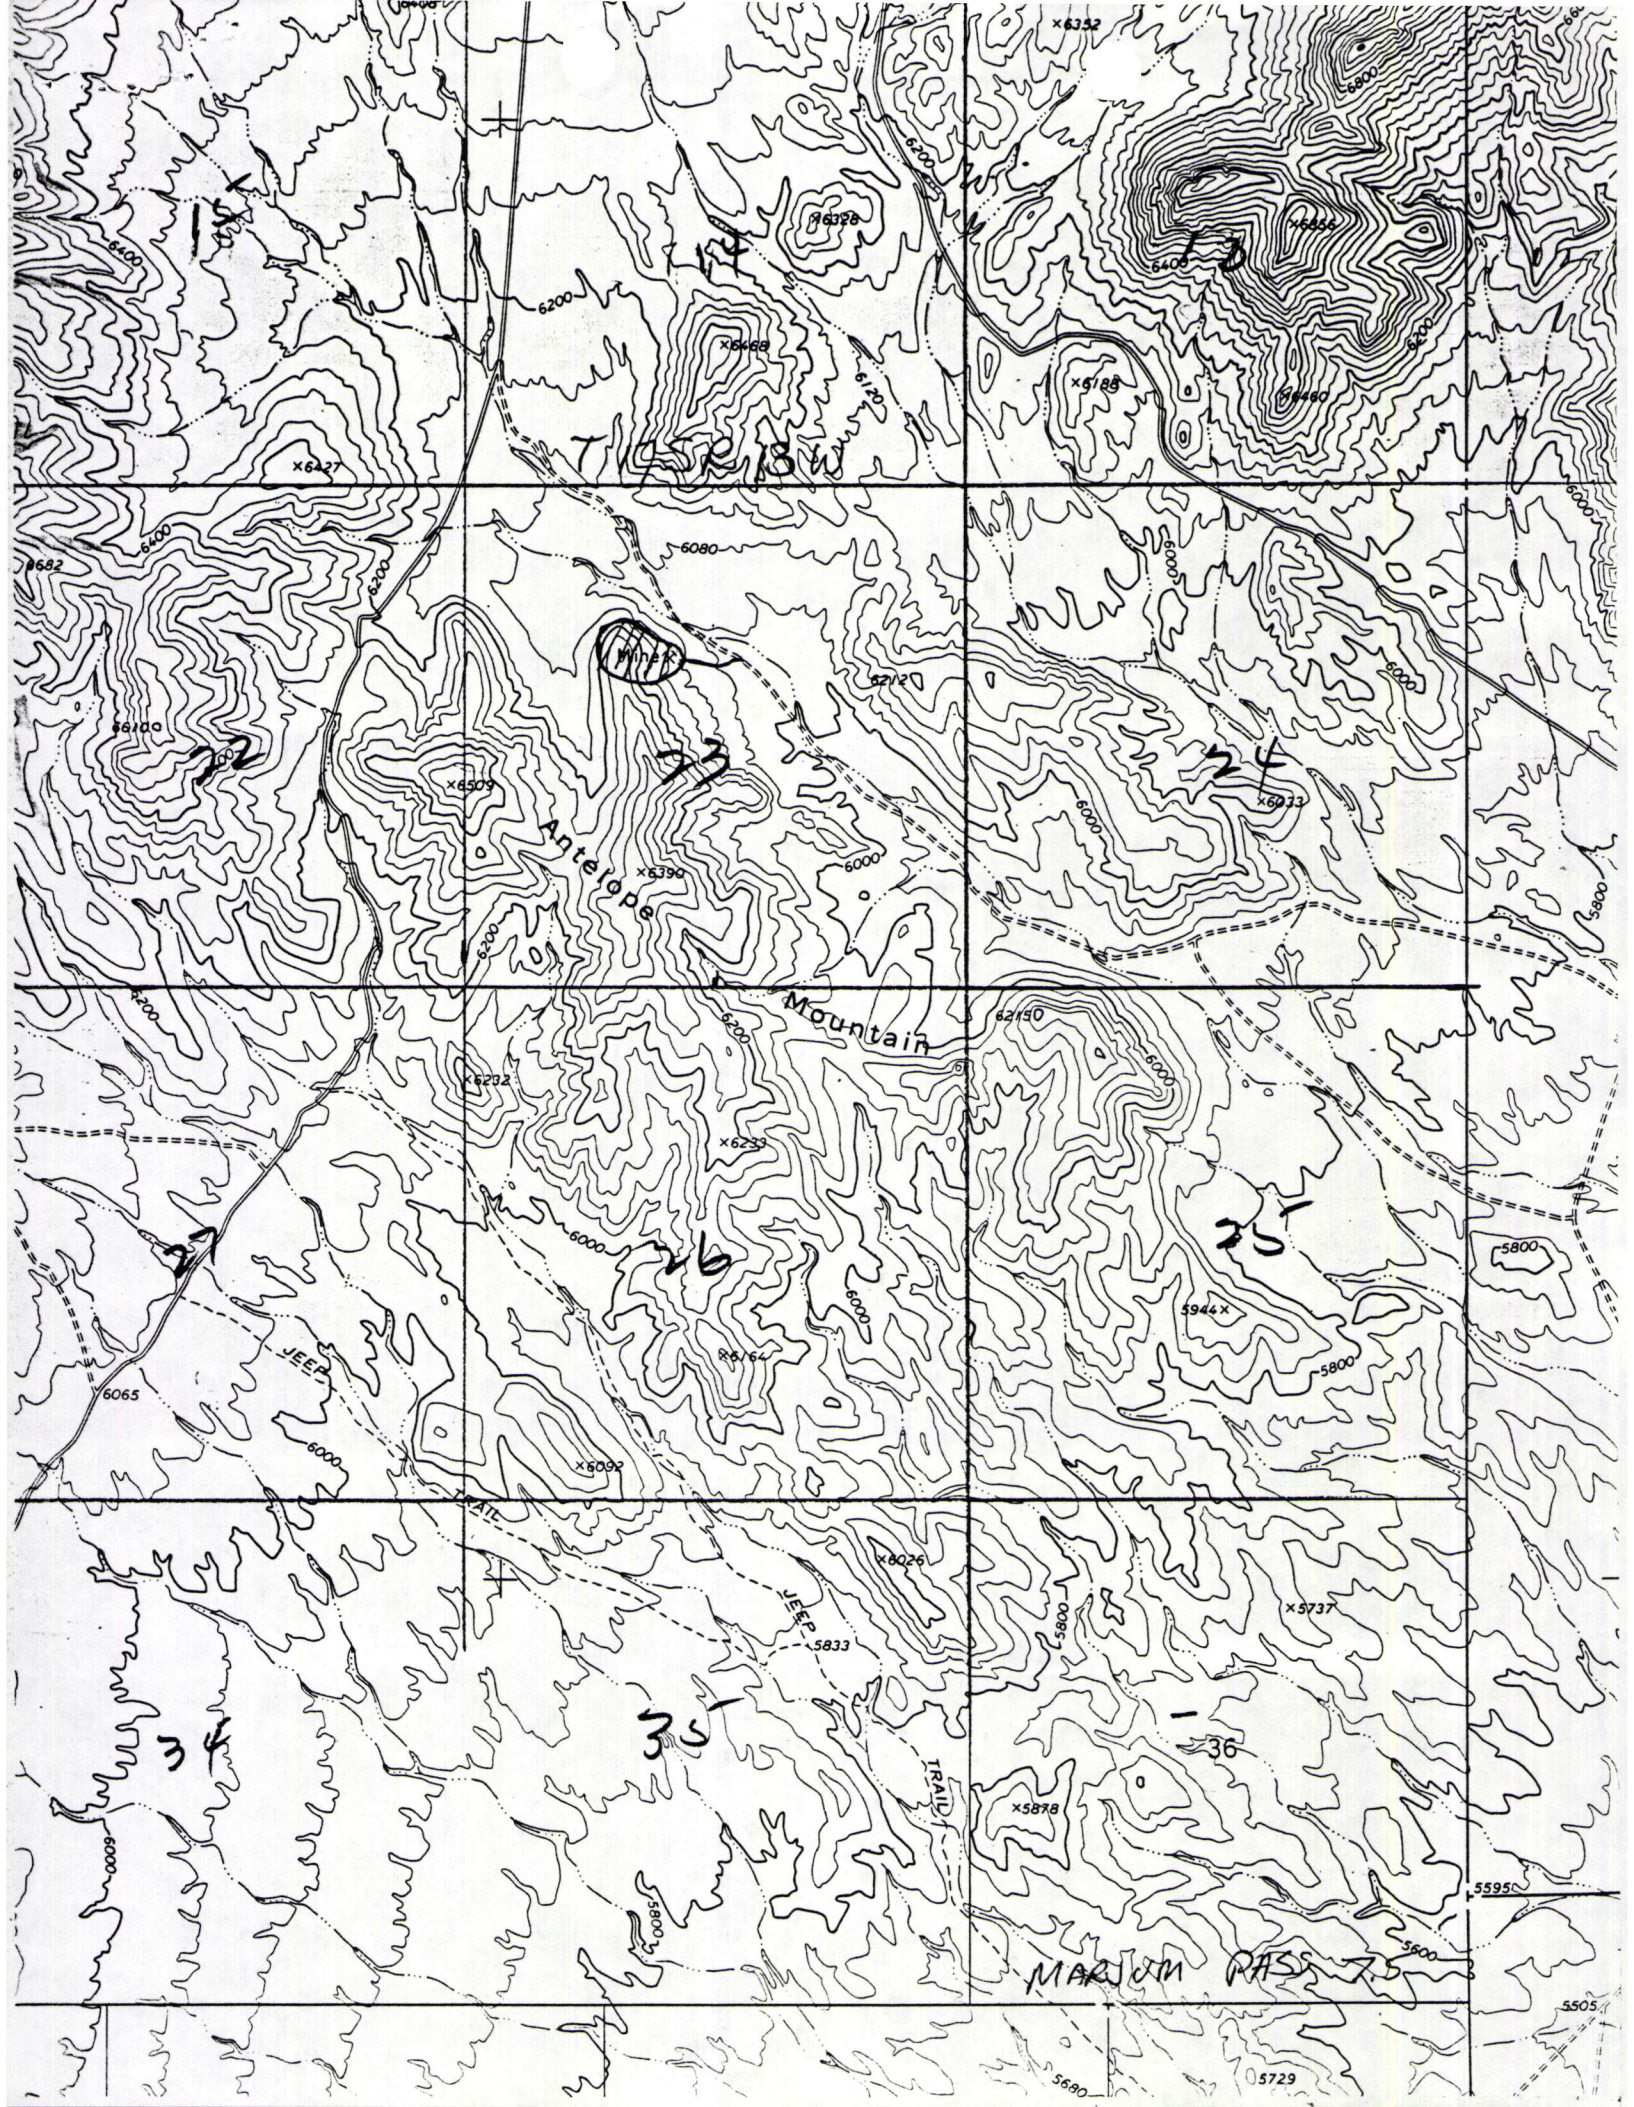

Sincerely,

Dave Henderson
Area Manager
